

## Security Improvements at CCS

All visitors are required to report to the main office and submit a current state issued driver's license. This increased level of security will allow our school to better track visitors and increase the safety and security of our students. Once your license has been scanned, you will be issued an identification badge to wear while you are in our building. Before leaving our school, your badge will be scanned to sign you out. Safety is always our top priority and we sincerely appreciate your continued support.
